PROFESSIONAL SUMMARY

Dedicated and passionate Mobile Application Development student with eight (8) plus years of successful experience working for international companies. I was promoted to Project Manager which allowed me to collect and develop more valuable experience for managing and deploying projects.

Recognizing my interest in Mobile Application Development, I elected to take a leave from the workforce in order to go back to school. The time that I was able to commit to my education has been invaluable to my professional growth, and I am eager to re-enter the professional sphere and apply my newfound qualifications and knowledge to the job.
